Licensing

Computers and Structures, Inc. (CSI) uses Sentinel RMS License Manager by SafeNet, Inc. to license its software. For a given CSI product and version, you will need to use *either* Conventional Licensing (old-style locking code) *or* Web-Activated Licensing (new-style locking code), based on the below table:

Products with Conventional Licensing (uses OLD-style locking code)	Products with Web-Activated Licensing (uses NEW-style locking code)
CSiBridge v15.2.0 and prior	CSiBridge 2014 (v16.0.0) and higher
SAP2000 v15.2.1 and prior	SAP2000 v16.0.0 and higher
ETABS v9.7.4 and prior	ETABS 2013 and higher
SAFE v12 and prior	SAFE 2014 and higher
Perform-3D v5 and prior	CSiXRevit 2013 and higher
CSICol v9 and prior	
CSiXRevit 2012 and prior	

For upcoming releases of CSI products, the Conventional Licensing method will be gradually phased out in favor of the Web-Activated Licensing method. Below is a list of articles providing additional information and comprehensive details for each licensing method:
