

Import StruCAD*3D or ZenScad into SAP2000

StruCAD*3D analysis models may be imported into [SAP2000](#) by selecting File > Import > Stru*3D File. Because StruCAD*3D and SAP2000 have different FEM libraries, and different analytical capabilities, not all data will be imported. Please refer to the StruCAD*3D / ZenScad Import Manual, located in the Manuals folder, for additional details on these capabilities and limitations.

[Import](#) instructions are listed as follows:

1. Select File > Import > Stru*3D File.
2. Within the Select StruCAD*3D File Import form, specify the path and filename of the data file to be imported.
3. Select OK to complete the import process.
