Overview

Sentinel RMS 9.4/9.2/8.6/8.5 Utilities include applications such as WlmAdmin.exe and the License activation tool. In addition to Sentinel RMS License Manager, these utilities are required for web-activated network licenses. Microsoft .NET Frameworks is also required, and the correct version will install automatically during Sentinel RMS Utilities 9.4/9.2/8.6/8.5 setup. Sentinel RMS Utilities v9.4, v9.2 or v8.6 can be installed directly from http://www.csiamerica.com/go.

System requirements for the latest Sentinel RMS Utilities are listed below.

Installation

The latest version of the CSI Licensing Utilities can be installed either by using the CSI Installation Wizard or the installation file can be downloaded from the following direct link:

- http://www.csiamerica.com/go/software/license-manager-utilities
