Working with multiple windows

An overview of **working with multiple windows** in CSiBridge is as follows:

- By default, two windows are initially placed side by side.

- To add an additional window, in the upper right corner of the window title bar, select the down arrow, then Add New Window, as shown in Figure 1:

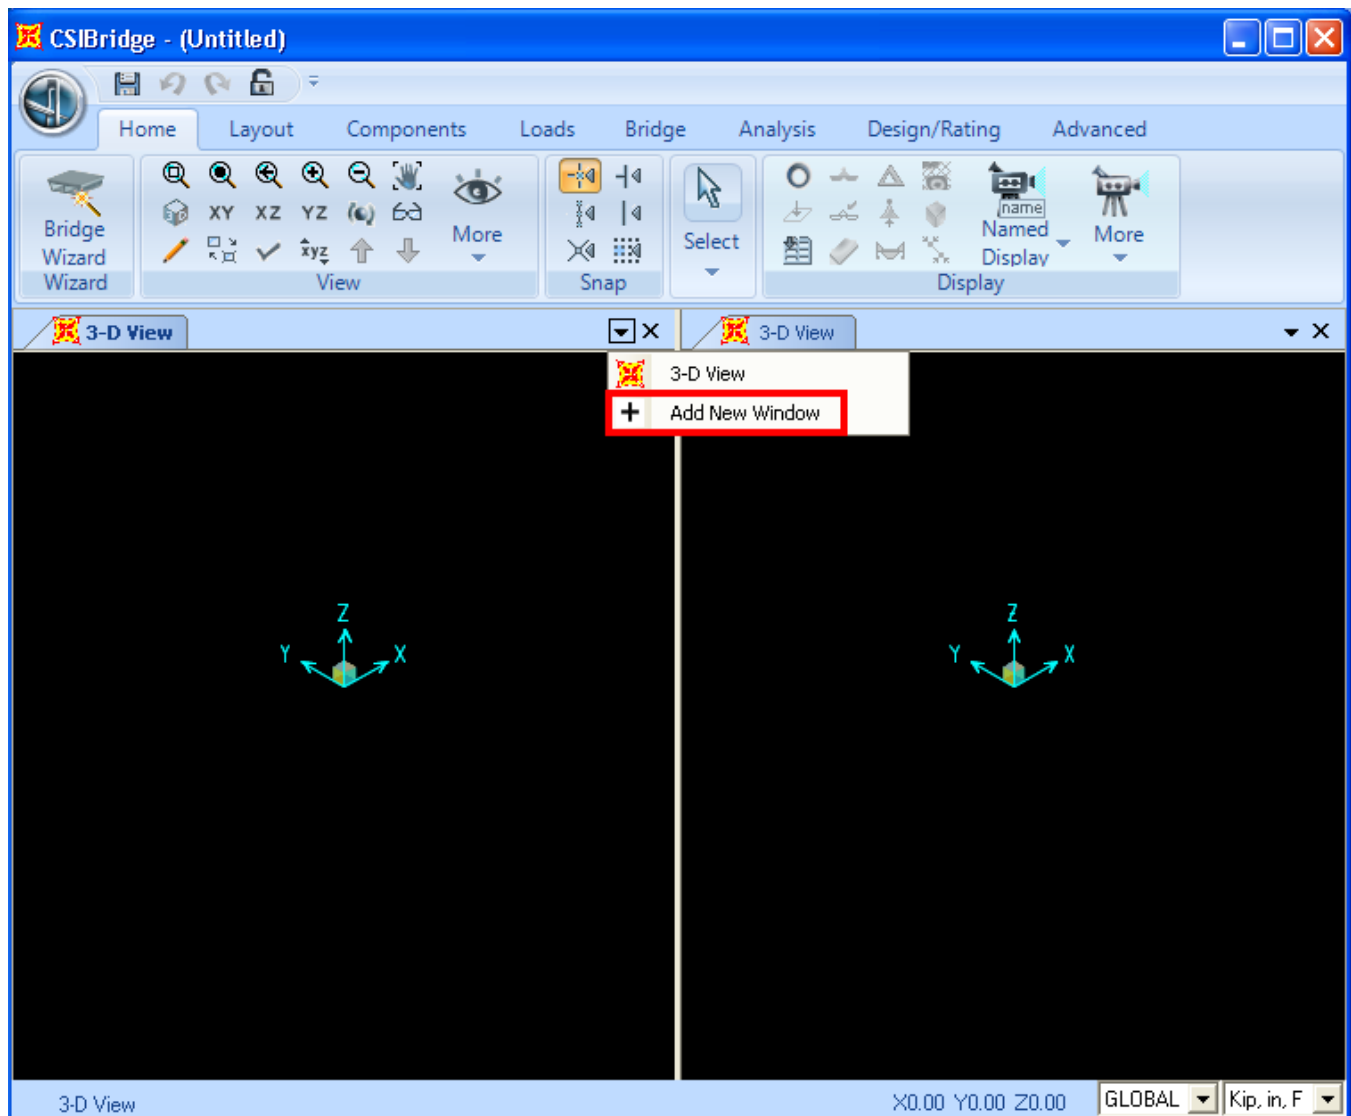

Figure 1 - Multiple Windows

- An additional window will then overlap one of the existing windows, as shown in Figure 2:

Figure 2 - Multiple Windows

- The new window tab may be selected and dragged to the position desired, as shown in Figure 3:
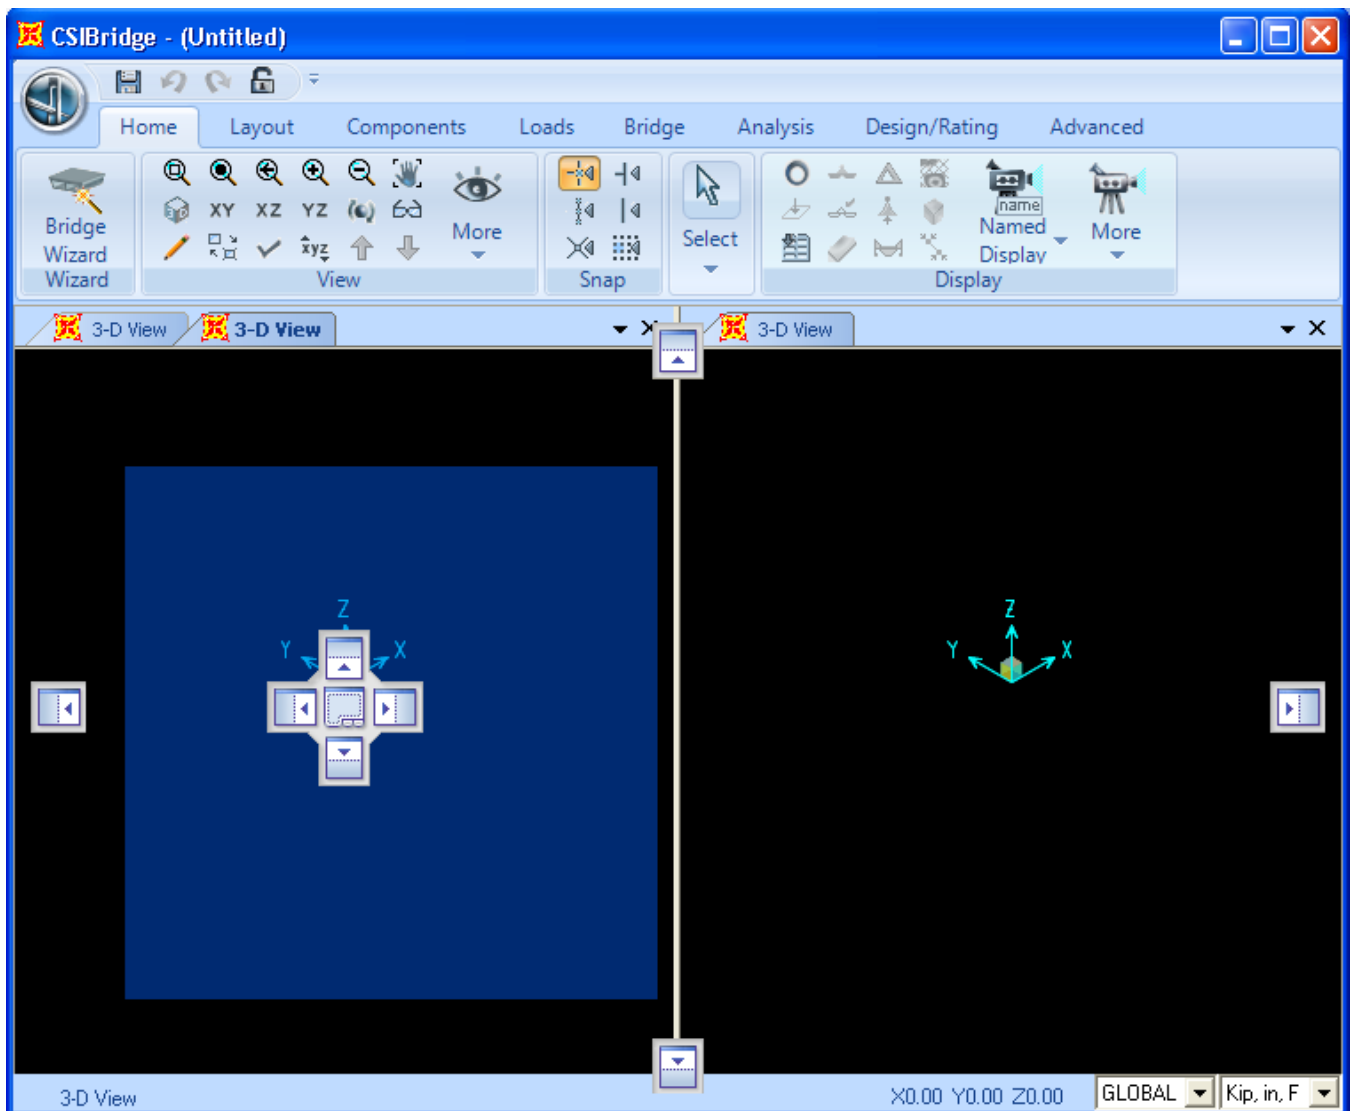

Figure 3 - Multiple Windows

- Once dragged into the floating position, the window will be displayed as shown in Figure 4:
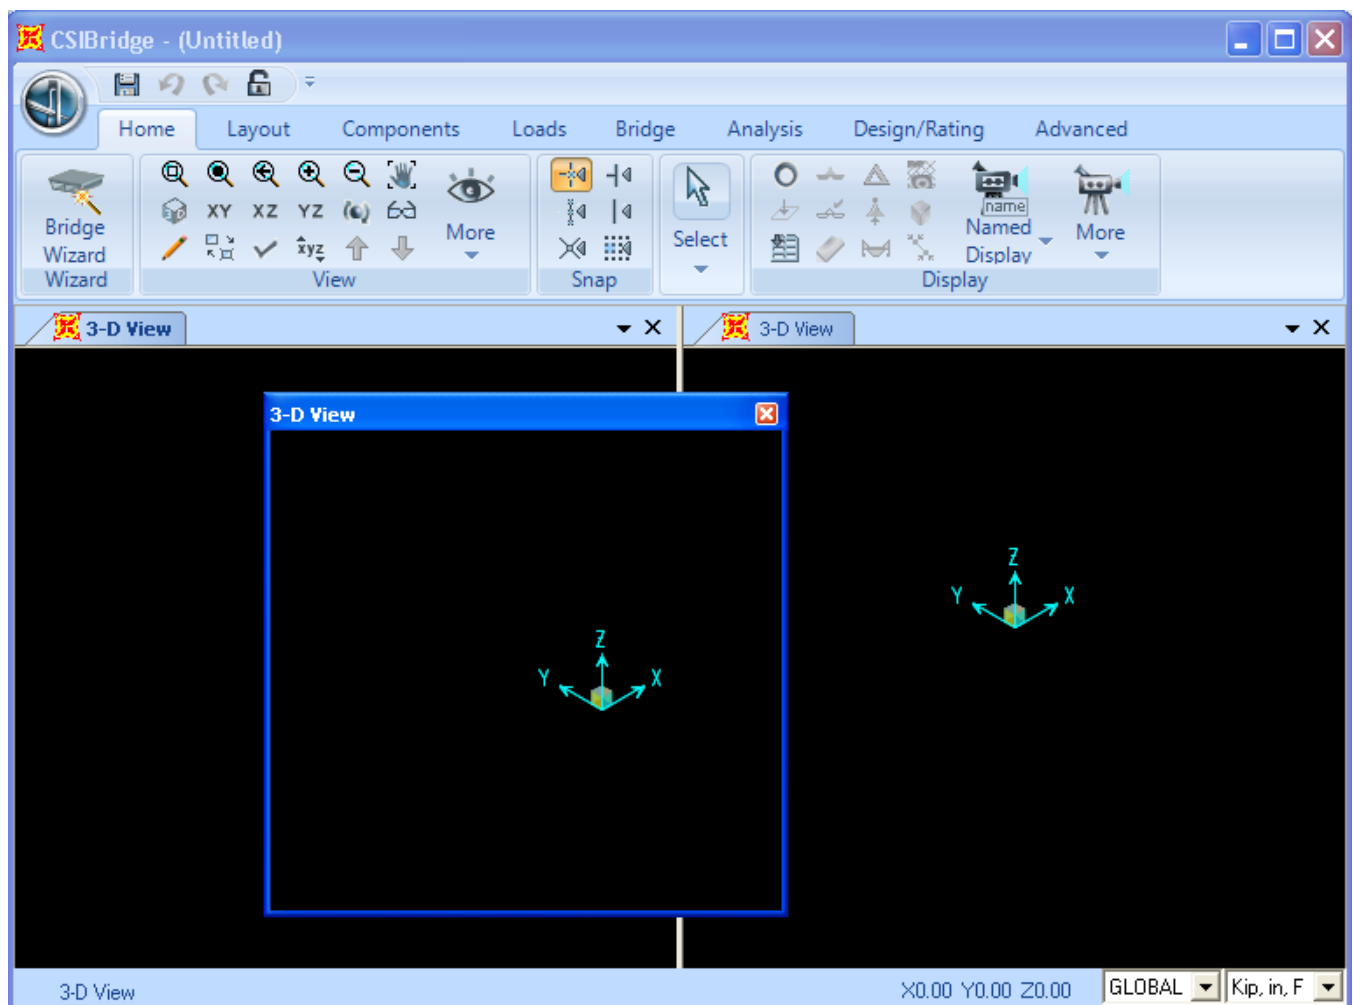

Figure 4 - Multiple Windows

- Double-click the window title bar to move the window to its previous position.
